Model Selection Guide with Price Data

Honeywell Proprietary

- Unique product architecture which provides ease of use, lower installation cost, easy calibration and maintenance
- Provides on-line diagnostics to minimize trouble-shooting
- Electrodes & Cells must be specified separately. For electrodes and available mounting see MSG DL1000 for Durafet pH, DL2000 for Meredian II, DL3000 for ORP, DL4000 for conductivity and DL5000 for dissolved oxygen.
- See Product Specs for detail:

  DL421/422 70-82-03-04; DL423 70-82-03-47; DL424/425 70-82-03-48

Instructions

- Select the desired key number. The arrow to the right marks the selection available.
- Make the desired selections from Tables I through IV using the column below the proper arrow.   A dot (•) denotes availability.

Key Number	I	II	III	IV
_ _ _ _ _	- _	- _	- _	- _ _ _

List Price equals the sum of prices for all selections made.

Key Number - DirectLine® Sensor Electronics Module
(Specify electrodes/cells/probes separately)

		Selection	Availability					Stocking P/N
pH	For use with Durafet II, Meredian II & HPW7000 pH electrodes	DL421	↓					51452682-001
ORP	For use with ORP electrode	DL422		↓				51452682-002
Conductivity	For use with Contacting Conductivity Cells	DL423			↓			51452682-003
DO - PPM	For use with Dissolved Oxygen ppm Probes	DL424				↓		51452682-004
DO - PPB	For use with Dissolved Oxygen ppb Probes	DL425					↓	51452682-005

Notes:

1 Customers may procure their own output cordsets from the vendors listed below.

2 Customers may make their own 4-20 mA output cordset using a 2-wire twisted shielded pair,
and M12 field wiring connector procured from one of the vendors listed below.
Use only UV rated outdoor cable to maintain NEMA 4 rating.

	Phoenix Contact	**Turck**
Cordset	SAC-3P-5.0-PUR/M12FSSH Stainless	RKV4T-6/S618
M12 Field Wiring Connector	SACC-M12FS-4CON-PG7	B8141-0
Cable	2-wire twisted shielded pair	

3 Durafet III cables with Vario Pin connector require Durafet III electrode with Vario Pin connector

ORDERING INSTRUCTIONS:

1. Part numbers are provided to facilitate Distributor Stock.
2. Orders may be placed either by model selection or by part number.
3. Part numbers are shown within the model selection tables to assist with compatibility information.
4. Orders placed by model selection are systematically protected against incompatibility.
5. Compatibility assessment is the responsibility of the purchaser for orders placed by part number.
6. Items labeled as N/A are not available via the stocking program and must be ordered by model selection.
