

Psychrometers and Hygrometers

Psychrometers

1328 Sling Psychrometer

- 20° to 120°F in 1° Divisions
- Accuracy: $\pm 1^\circ\text{F}$
- 9" Tubes
- Folding Swivel Handle
- Mercury Filled
- Special Molded Case
- Stainless Steel Back
- °C (1328C) and Permacolor™ (1328P) Versions Available

- 1328A** Spare Tubes for 1328
- 1328CA** Spare Tubes for 1328C
- 1328PA** Spare Tubes for 1328P

1330 Pocket Sling Psychrometer

- 20° to 120°F
- Accuracy: $\pm 1^\circ\text{F}$
- Mercury Filled
- High Impact Plastic
- White on Black Scale Markings
- °C (1330C) and Permacolor™ (1330P) Versions Available

- 1330NA** Spare Tubes for 1330
- 1330NCA** Spare Tubes for 1330C
- 1330NPA** Spare Tubes for 1330P, Button Top

Hygrometers

5522 Mason's Hygrometer

- 30° to 120°F
- Accuracy: $\pm 1.5^\circ\text{F}$
- Mercury Filled
- Wet Bulb - Dry Bulb
- Boxed With Wicks and Humidity Tables

- 5522A** Replacement Tube and Scale for 5522
- 5522N** Replacement Cistern for 5522

5525 Mason's Hygrometer

- 0° to 130°F
- Accuracy: $\pm 2^\circ\text{F}$
- Permacolor™ Filled
- Wet Bulb - Dry Bulb

- 5525N** Water Cistern for 5525

5565 Dial Hygrometer and Thermometer

- 10° to 130°F
- 5% to 90% RH
- Temperature Accuracy: $\pm 1.8^\circ\text{F}$
- Humidity Accuracy: $\pm 5\%$ between 25%-90% RH
- Large 5" Dial
- Synthetic Hair RH Sensor

Pressure Calibrators

Flow Transmitters, Pneumatic Controllers, Low Pressure Gauges, Pneumatic Transmitters

The calibrator consists of sphygmomanometer type (blood pressure) precision gauge accurate to $\pm 1\%$ with a squeeze bulb for applying pressure manually and a precision-machined hand-adjusted valve to hold and relieve the calibrating pressure. A flexible hose and a 3/16" tube - 1/4" NPT compression fitting is supplied for quick and easy connection to unit being tested.

44S 369 Pressure Calibrator

- 0-160" Water Indicating Gauge
- Includes Carrying Case

44S 390 Pressure Calibrator

- 0-18 SIG Indicating Gauge
- Includes Carrying Case
